MILNER
Appl. No. 10/589,253
Atty. Ref.: 5229-2
Amendment
Monday, July 26, 2010

The cited art does not disclose an siRNA characterized by the sequences defined in SEQ ID NO: 11 and 12. This is a specific siRNA that inhibits the expression of SIRT1 transcripts that include exon 8 and therefore will inhibit the expression of full length SIRT1. Moreover, there is no suggestion in the cited art of a siRNA comprising the sequences recited in the claims. The claims are patentable over the cited art and withdrawal of the Section 102 rejection is requested.

The claims are submitted to be in condition for allowance and a Notice to that effect is requested. The Examiner is requested to contact the undersigned, preferably by telephone, in the event anything further is required.

Respectfully submitted,

NIXON & VANDERHYE P.C.
